Mr. Ed Londres
Engineering Section
Bureau of Waste Management
32 E. Hanover Street
Trenton, New Jersey 08625

Dear Mr. Londres:

Our company holds the pollution-liability insurance coverage for Tifa, Ltd., who are the owners and occupiers of the site addressed as 50 Division Avenue, Millington, New Jersey and known to your office as the "Millington Asbestos Dump Site". This site was previously owned by the National Gypsum Company.

By way of this letter, we are requesting copies of the "permit" issued and any "orders" sent by your office or by the Stream Encroachment Bureau to either Tifa, Ltd. or National Gypsum Company. Please also forward copies of any "General Status Reports" and any "Analysis Reports" which are available regarding this site. Also, copies of any pertinent correspondence between these parties regarding the hazards, controls, operations, methods to be taken, etc. would be appreciated.

We have requested similar information from Mr. George King of the Bureau of Site Management. Mr. Dave Shotwell, of that office, has notified us by phone that the permit information must come from your office. If possible, please collaborate with Mr. King's group to assure no duplication of effort is made, nor any requested information is overlooked.

Thank you in advance, I remain;

Cordially yours,

William J. Fries
